

## How to Get Monthly Statements from Cash App

This short guide shows how to view and download monthly account statements from Cash App using the mobile app and the Cash App website. Steps are based on Cash App's support documentation and current as of the date above. If a menu item differs in your app, update the app and try again.

### A) From the Cash App mobile app (iOS or Android):

1. Open the Cash App on your phone and sign in if needed.
2. Tap your profile icon (usually in the top-right corner of the home screen).
3. Select 'Personal' from the profile menu.
4. Scroll down and tap 'Documents' (or 'Documents & Statements').
5. Tap 'Account Statements' or 'Monthly Statements'.
6. Choose the month and year you want to view. Tap 'View' to open it.
7. To save a copy: use the share / export / print options from the viewer to save as a PDF or send to email.

### B) From the Cash App website (desktop):

8. Open a web browser and go to <https://cash.app/account> and sign in with your Cash App credentials.
9. From the left-hand menu, click 'Documents'.
10. Click 'Account statements' (or 'Statements' / 'Monthly Statements').
11. Use the year/month dropdown or list to select the statement you want and click 'View'.
12. Once the statement opens, choose 'Download' or use your browser's Print → Save as PDF option to create a PDF copy.

### Troubleshooting & Tips:

- If you don't see 'Documents' or 'Account Statements' in the app, make sure the app is updated to the latest version.
- If months are missing, check whether you are signed into the correct Cash App account (email/phone).
- To request older records or help, contact Cash App Support from the app (Profile → Support) or via [cash.app/help](https://cash.app/help).
- Keep your account secure: never share your sign-in code, and only download statements on private devices or secure networks.

If you'd like, I can customize this Word document with screenshots of the exact menu items from your app version or create a short one-page instruction card. (Note: I didn't include screenshots to avoid using your account.)
